

Fourth Grade Team

Welcome to the fourth grade at River Ridge Elementary School!!! Our team consists of six regular education classrooms and one special education classroom. We are excited to be working together to provide valuable learning experiences for your child. Our goal is to help our students develop the confidence to become independent learners so that they will achieve academic success. When planning instruction we use Kenton County's Curriculum Guide. You can find a copy of this and a timeline for fourth grade instruction on the district's website at this link:
