

Learning Knows No Bounds

Our special education staff provides services to students at River Ridge Elementary. Following assessment and determination of eligibility based on Kentucky Department of Education guidelines, students are provided with an Individual Education Plan (IEP) which addresses the areas of need for services. These services vary from speech/language therapy, pull-out (working individually or in a small group with a special education teacher), collaborative (working with the special education teacher and the regular education teacher in the classroom), occupational therapy, and physical therapy.

We believe that parent involvement and communication between home and school is very important. We welcome any questions, comments or concerns that you may have. You can reach us by using the emails below.
