

To allow emergency equipment access to the school and homes on Summit Drive, it is important that all drivers picking up students follow the plan. Remember: an ambulance or fire truck cannot get to the school if your car is blocking the way.

Please do not park or wait for your child in any of the fire lanes. Both sides of Summit Drive and the loop in front of the gym are all fire lanes. You may wait for your child in either the F lot by the school or the G lot in the rear of the school. Please use the route illustrated above.

Also, please do not block the main driveway to the school. When it is blocked, busses, students, and staff cannot turn into the driveway. This causes a backup onto Dixie Highway which then causes traffic congestion in the intersection.
